

BRC's Safety Guidelines Book

Footwear Guidelines

Scope:

All BCMG events & hires

Content

There are a number of natural safety hazards that occur at the Chalet in and around the Chalet.

Closed toe shoes (no thongs or sandals) must be worn in the kitchen, wood room, generator room and workshop at all times.

When chopping wood in the wood shed, it is compulsory to wear safety capped boots. Safety capped gumboots are supplied for this reason.

Safety capped boots are encouraged for all working bee participants.

Approved by Risk Sub-Group 23rd February 2025

Ratified: 19th February 2025

To be reviewed: No later than February 2028
