

BRC's Safety Guidelines Book

Off Mountain Contact Guidelines

Scope:

All BCMG events & hires

Content

The role of the Off Mountain Contact is to monitor publicly available sources and provide that information to those at the Bogong Rover Chalet. This may be (but is not limited to) checking warnings on VicEmergency and monitoring warnings on BOM.

Unless otherwise communicated, the Off Mountain Contact is the Bookings Officer. This role can be discharged to other individuals at any time, provided it is communicated and recorded on the roster. Should there be significant individuals involved in a roster, it is suggested that the use of scheduled emails is used to ensure communication of who is responsible is clear.

Should the Off Mountain Contact believe there is a reason to contact the Chalet, they are to contact the Chalet via the landline number as soon as possible. If no answer, they are to try calling the Party Leader or the Person In Charge on their personal mobile number, in case they are out of the Chalet. Should there be no answer, a text is to be sent to the PL/PIC with a timestamp included and additional calls be made to the Chalet landline. At this time the Off Mountain Contact group chat (which contains the Wardens) will be contacted.

Should the Bogong High Plains Road open prematurely and a Winter Party is currently underway, the Off Mountain Contact is to communicate this to the Chalet as soon as possible.

The Off Mountain Contact's information is to be considered by the people at the Chalet making plans.

On Winter Parties, the Chalet keys that are skied in/out are to be checked in using the attached QR codes. The purpose of this is solely to assist in relocating the keys in the event

BRC's Safety Guidelines Book

that they are misplaced. The key holders of other keysets remain responsible for the movement of their key sets

This does not replace advise given to the Chalet by Scouts Victoria or Emergency Services.

Version 1	Approved by Risk Sub-Group 26 th November 2024 Ratified: 11th December 2024 To be reviewed: No later than October 2027
Version 1.1	<i>Update from 1.0 to 1.1 was changing of 1 word. This change was made in February 2025 and deemed to not require ratification. There were no other changes.</i>
Version 1.2	Approved by Risk Sub-Group: 12th August 2025 Ratified: 20th August 2025 To be reviewed: No later than July 2028
